SHEET METAL CONTRACTORS

34 CARDICO DRIVE • UNIT 2 • GORMLEY, ON L0H 1G0 • TEL: (905) 888-9200 OR (416) 496-0109 • FAX: (905) 888-9202

## SITE SET-UP OVERVIEW

### ITEM – 1 Project Manager

The duties of our project manager are to process and generate all pertinent paper work, do all project and equipment scheduling. The project manager will work in total cooperation with the prime mechanical contractor.

### ITEM – 2 Foremen

Our foremen are responsible for on site coordination of our work, manpower, and material.

### ITEM – 3 AUTOCAD Team

Our CAD operators will produce all sleeving, interference, coordination, and as-built drawings. Our HVAC software “Quick Pen” enables us to provide complete fabricating drawings for our in house manufacturing plant.

### ITEM – 4 Sleeving Coordinator

Tam-Kal Limited is a firm believer that sleeving is the most important factor of starting any project. We have one of the most experienced sleeving personnel in the province.

### ITEM – 5 Quality Control and Sheet Metal Products Receiver

This person will receive all sheet metal products, disperse to proper areas and confirm quantity and sizes.

### ITEM – 6 Safety Representative

Tam-Kal Limited provides “certified” in house safety representatives (shop facility and field). As the records will show, Tam-Kal Limited is safety conscious and dedicated to accident prevention. Tam-Kal Limited has not had a major accident since its incorporation more than 35 years ago.

In addition to the above, Tam-Kal Limited has a current manpower force floating 85 to 100 tradesmen. We are a union firm, which allows us to have access to an even larger force of tradesmen if required.
